WASHINGTON LETTER.

From our Regular Correspondent.

Washington, D.C., Nov. 18, 1892.

How did it happen has been generally
discussed and now it is "what will the
Democrats do?" It happened because
they had the most votes. That is an easy
one, and time will make clear the answer
to the other question. With Cleveland
clear out all the Republicans? Will he
call an extra session? On the first point
there is less anxiety among Republicans
than eight years ago. Cleveland's
conservation acts all positions now in the
classified service being considered as a
practical guarantee against sweeping
dismissals. Besides many of his appoint-
ees have continued to hold office through
Harrison's administration.

Opinion is much divided as to the
early assembling of the new Congress.
On one side it is urged that the people
having emphatically condemned the Mc-
Kinley bill and put the Democrats in
power they should at once repeal the rob-
ber tariff. On the other hand it is urged
that it will take some time to get the new
administration in running order, that it
will be wise to make haste slowly and
that a sudden and abrupt change will
unnecessarily disturb the business situa-
tion. Mr. Cleveland is likely to keep his
own counsel, and we may not know what
he purposes to do until next March, but
it is the more general opinion here that he
will not call an extra session.

The Government distributes, seeds,
Congressional speeches and fish to the
people without money and without price.
Just at this time the Fish Commission is
draining Uncle Sam's carp ponds situated
between the White House and the Wash-
ington Monument and setting out finger
length yearlings for shipment. They are
put by fifties in two gallon cans and man-
y tens of thousands are thus distributed.

Trout, shad and other of the less hardy
varieties require aerated water and greater
care, but the carp will endure a journey
of several days without change of water
and thrive thereafter in almost any pond
or stream. The Potomac was stocked
with them a few years since by a freed-
man which washed Pennsylvania Avenue from
the Treasury to the Capital and emptied
the fish breeding ponds, and carp are now
freely caught weighing fifteen to twenty
pound or more. Washingtonians have
"salt and fresh water fish of all varieties
in great abundance and do not seem to
relish these importations from the Danube.
But it is said that when properly cooked
they are equal to the best. They may be
less than pickled and other timid and
fastidious game fish. If their original
habits are not dried up by the destruction
of forests, nor depopulated by the con-
stant shipping of twenty times too many
fishermen, they are apt to be thickened
with raw dust, sewage or residual chem-
icals. These carp live any where and
illustrate the survival of the fittest. If
you wish to stock your pond send to the
U. S. Commission for a blank application,
get the endorsement of a Congressman and
in due time receive a consignment of the
handy prolific, vegetarian carp.

LITERARY NOTES.

The November number of *The Mani-
toba*, Winnipeg's Illustrated Magazine,
is to hand and presents a varied table of
contents. Of the numerous articles
which go to make up this excellent num-
ber, "A Journey to the Yukon," by W.
W. Kirby, as described in 1892, is re-
produced and tell us in an interesting
manner of the customs and habits of the
Esquimaux in the Arctic region. "Refers Re-
tires," by G. A. Elliot, of Lethbridge,
relates an incident of the early days in
the capture of smugglers who infested
Alberta and the North West Territories.
"A Day's Shooting Near Portage la
Prairie," by Bob the Hunter, is an in-
teresting account of a day's sport near the
Portage Plains, accompanied by numerous
illustrations. "Medicinal Roots of Mani-
toba." Notes and Comments, Publisher's
Notes and several other miscellaneous
articles with illustrations make up a
capital number which every one should
read. We notice a special Christmas
number will be issued full of attractions
and would ask our readers to send in their
orders early. Published by *The Mani-
toba* Pub. Co., Winnipeg, \$1.00 per year,

A DANGEROUS COLD.

Dear Sirs—My little girl last winter
had a very bad cold which almost result-
ed in congestion of the lungs. After
doctoring with her for three months with-
out success I tried Haygarth's Pectoral
Salad, and two bottles of it cured her.
She is now strong and healthy.

PRINCE ALBERT, NOV. 23, 1892.

GOOD NEWS.

"The cheering news has been received from Mr. Hugh Sutherland that the work of construction on the H. B. Ry. will be all probability completed next spring. The contract has been signed by Messrs. Ross, Mann and Hall. Mr. Sutherland, director of the company, has just returned from England, where he has been negotiating the loan for the railway. It seems likely that the route will be on the west side of Lake Manitoba and that a branch to Prince Albert will be included in the scheme. There is no doubt that ultimately a branch of the system will be extended to Regina giving us a direct communication with the west."—*Regina Leader*.

The building of the Hudson's Bay & West Canadian R.R. will, as a short and direct route from the North-West to Great Britain, having been considered a possible scheme, and one which will never be accomplished. The advantages of such a route to Manitoba and the North-West are not to be over-estimated, and have, time and time again, been brought to the notice of the people of this country and Great Britain. No man seems to work more persistently for the ultimate success of this great scheme than Mr. Hugh Sutherland, who never ceases to promote the interests of the H. B. Ry. We hope the news is correct, and that Mr. Sutherland will be successful in raising the necessary funds for the carrying out of this great and important undertaking, but we have often received the same good news that the necessary funds would be forthcoming and that the work of construction would commence in the spring, and yet the spring has come and gone, again and again, and no Hudson's Bay Railway yet. It is to be hoped that "the cheering news" in the *Leader* may prove to be correct for all will hail the building of this great railway with delight. Should Mr. Sutherland be successful in making the necessary financial arrangements for the building of the road and a branch to this place, Prince Albert will undoubtedly be one of the largest cities of Western Canada, and the extension of this line to Regina will most certainly make it also a large and prosperous city. Regina and Prince Albert are sufficiently far apart for large cities, and their positions are such, that the building of the H. B. Ry., with a branch road to Prince Albert and extended to Regina, both will become important centres, and what Montreal is to Lower Canada, and Winnipeg to Manitoba, Prince Albert will be to the North-west.

His Honor the Lieutenant Governor has called a meeting of the Local Assembly for December 7th.

Mr. Cleveland will have about 600,000 plurality of the popular vote, as against 62,000 in 1884 and 98,000 in 1888.

Our neighbors have beaten President Harrison out of his boots, but they cannot deprive him of his grandfather's hat.

It looks as if the United States Senate was going to stand: Democrats 45, Republicans 38, Independents 6. As the latter are mostly Weaverites they will vote against the Republicans upon tariff opinions. The House will be about 70 for the Democrats.

The Imperial authorities have sent the sum of \$72,000 to Newfoundland as a contribution toward the fire sufferers. The island has found that in time of trouble it is a good thing to be a member of the British Empire.

Recent inquiry into the quarantine systems of British Columbia seems to prove the care exercised by the authorities and the precautions taken by the Empress of Japan and other C. P. R. steamers in order to prevent small pox from being introduced, either aboard the vessels or into the places of call.

Most people would imagine that Chile, the Argentine and Peru had encountered enough trouble lately. Famine unannounced that they are actually preparing for war. It is to be feared that peace and prosperity will never reign in South America until England takes hold of the situation as well as commercially.

Democratic newspapers are already busy arranging with Mr. Cleveland's Cabinet for next March. William C. Whitney, it is said, can have whatever he wants. T. F. Ryan and E. J. Phipps are mentioned for the Secretaryship of State. Charles S. Fairchild, Senator Cullie, Gen. Patrick A. Collins, of Massachusetts, Don M. McKim, of Michigan, and, of course, William F. Hendry, are on the list.

The Memorial unveiled on the 16th inst. to St. Paul's Cathedral to Mr. John Macdonald was a timely and fitting tribute from British leading men to Canada's greatest son. It was a renewed evidence of that unity of sentiment and aspiration which exists throughout the wide expanse of the self-governing Empire of Britain, and will probably continue to exist in spite of occasional mistakes in policy and business in action. It was once more proof of the sincere feeling which exists in Great Britain for the man who did such great work for the Empire of his birth and the land of his adoption.

The presence of earnest words of Lord Rosebery were suitable to the occasion, and it was eminently appropriate that the man who leads in England the movement for closer connection with Canada and the Empire at large should unveil a Memorial to his fellow statesman who was mainly instrumental in building up British power and Canadian unity upon the North American continent, and whose memorable words of British allegiance are yet ringing in the ears of the Imperial race.—*Empire*.

Mr. Boulton, of Preston, reports the sale of 15,000 barrels of canned fruit, also in British Columbia. This looks like a fine provincial trade.

The speech of Hon. G. E. Foster before the Imperial Federation League in London will do good. The audience, as a whole, was sympathetic and, our Minister's generally recognized eloquence seems to have made an impression. The time is ripe for Canada to keep steadily before the people of the Motherland the rich resources and developing commerce of the Dominion which, under a system of mutually beneficial governmental duties, could be made to contribute materially to the wealth and greatness of the British Empire.

THE GREAT STAR ALMANAC. In Montreal the *Star* Almanac is just coming out. It is simply a wonder, showing, by practical, mercantile, and prophetic, and about a year's work with things we ought to, but do not know about. No amount of praise seems to do justice.

THE LAKE MAGAZINE. The November issue of the *Lake Magazine* the new high-class Canadian monthly presents a most inviting bill of intellectual fare. Several of the authors are worthy to compare in merit and originality of thought with any appearing in current review literature. Mr. Chas. A. Stewart's article, "Would it mean an American Empire?" is thoughtful, scholarly, and very suggestive; it opposes Canadian Union on cosmopolitan principles, a novel ground that has hitherto not been taken in the discussion of the future of Canada. Attorney-General Longley, in his usual animated style, opposes "Woman Suffrage." Hon. T. W. Anglin in "What does Home Rule for Ireland Mean?" presents the Irish Federalist's demands, and deals with objections raised by Unionists. "Religious Thoughts in the Nineteenth Century" as illustrated in Tennyson and Browning, by O. J. Stevenson, exhibits a careful study of interesting phases of modern thought. "Prince Edward Sound," by Miss Frank Davis, "Regarding a Simple Action,"—an interpretation of the significance of various groups of the land,—by Chas. Walter, and an "Allegory on Gossip," by Annie Gregg Savigny, complete the list of articles. The fiction—entirely original and of high quality—embraces "An After-Dinner Yarn," a Prize Story, by Katherine Mackenzie; "The Tutor," by Emily Weaver; "A Penitence," by J. F. Herbin, and "Pere Michaud," by T. G. Marguerite. A remarkable sonnet, "November," by S. P. Morse, of Milton, and a poem, "Eucalyptus," by W. P. Taylor, complete the contents.

The *Lake Magazine* is published by "The Lake Publishing Company," Toronto for 25 cents a number, or \$2.50 a year.

Our local artist, Mr. O'Meara, has now on view a handsome Christmas Card of his own design. The selections are local and tasteful and will make a nice gift to send friends at a distance. They can be procured at the Post Office Bookstore.

One of the chief reasons given for the scheduling of Canadian cattle is that numerous cases of pleuro-pneumonia have been discovered among United States herds. Those who consider that is a good ground for inflicting injury upon the Dominion suggest that Canada and the United States are two different countries. There are lots of epidemics, strikes, and epidemics south of the international boundary which never trouble the people to the north of it. It is hardly fair to hold Canada responsible for the neighbors' bill of health.

CAN YOU TELL A Sponge? WHEN YOU SEE IT.

Probably you couldn't if you were to see one in the natural state. One would not recognize in the dark—almost black—substance full of mud, sand and shells the light yellow soft affair of our shops. The network of elastic fibres which remain behind after the living matter has been removed is the skeleton of the animal which is the sponge of commerce. There is a great difference in sponges. If you are not a judge come into our store the next time you want something in our line and we will gladly post you. Every kind is represented. We feel we can satisfy you no matter what your needs may be.
